

My travel plan for the winter vacation

This winter, travelling around Shanghai will make my vacation meaningful.

As we all know, Shanghai is full of exciting things to see and do. I can visit the famous tall buildings in the city, like the Shanghai Tower. And, walking along the Bund at night, I can enjoy the beautiful view. Yu Garden is also a beautiful place to visit. What's more, I can try tasty street foods on Chenghuangmiao Area.

In short, exploring Shanghai this winter will help me learn more about Chinese culture and history.

An unforgettable trip to...

(1)

Two years ago, I went on a trip to Abu Dhabi with my parents, and we had a great time there. What impressed us most there was the largest indoor theme park called "Ferrari World". The whole park was full of racing cars in different colours. And we were excited to take the largest roller coaster there, which can reach 240 kilometres per hour. In fact, it was my first time to ride a roller coaster. I closed my eyes and couldn't help screaming, feeling the wind in my ears. In a word, it was such an exciting and unforgettable journey that I will always keep the beautiful

When I was a little girl, I was always looking forward to visiting Beijing, which is the capital of our great country. Luckily, in the summer of 2024, I got a chance to go on a trip there with my family. And we had a wonderful time there.

As we know, there are many interesting places there. Among them, the Great Wall was the most impressive for me. It's magnificent and beautiful beyond description, like a dragon lying on the mountain. At that time, what came into my mind was "He who does not reach the Great Wall is not a true man."

In a word, this trip was so unforgettable that I want to visit Beijing again some day.

As the saying goes, Guilin's scenery is peerless in the world. However, it was not until I visited the place that I found it is really worthy of the reputation.

Last summer, I went to visit Guilin with my family and we stayed there for five days. The most unforgettable thing I did there was to row a kayak on Li River by myself, enjoying the amazing scenery: the water of the river is clear and green just like a gemstone and on the banks of the river there are many beautiful mountains in different shapes. It seemed that I was in a fantastic water-colour painting.

The natural beauty in Guilin has been rooted deeply in my mind and I will never forget it.

Among the trips I've taken to many beautiful places, the trip to Mount Huangshan is the most unforgettable for me.

Last summer, I went to visit there with my family. The pine trees and the amazing stones on the mountain were impressive and the clouds there were also very beautiful. And I was very happy to see many different animals like birds and monkeys there. I even met a hungry squirrel, which I bought some melon seeds to feed.

We spent several hours climbing the mountain. Finally, when we climbed onto the top of the mountain, we were too tired to walk any further. After a rest, we began to make our way down, and on the way I learned some history about Anhui from my father.

The trip was so exciting that I will always keep the unforgettable memory in my mind.

During the summer vacation of 2024, I went on a trip to the biggest country in the world—Russia—with my family. The stunning natural beauty in Russia is still fresh in my memory now.

During our stay there, we visited Red Square, the Winter Palace, the Summer Palace and many other interesting places. Among them, Red Square is the most impressive attraction for us, which is the oldest square in Moscow. It is amazing! We also enjoyed the delicious local food and gained a lot of knowledge about the country.

Though the happy time passed quickly, I will always keep the unforgettable memories in my mind.

In the summer of 2024, my parents and I joined a tour group to Scottish Highlands. And we had a great time there.

First, we travelled around in the mountains of the Highlands by bus. The rolling mountains were all covered with trees and grass, the air was very fresh, and the blue sky and the clouds looked so close to us. The scenery was beautiful beyond description.

Then, we had a picnic beside the shining lake. The water was so clear that we could see some fish swimming in it. And we also fed some swans with bread. All of these made us relaxed.

In a word, the trip to Scottish Highlands was so unforgettable that I wish to visit it again in the future.

(7)

I had an unforgettable trip last winter when I went to Hainan Island with my parents. It took us three hours to get there by plane, and we stayed in a hotel which was near a beautiful beach. During the vacation, we swam in the sea and enjoyed the bright sunshine, the fresh air and the beautiful scenery. And we also had lots of seafood. It was so delicious that we brought some back. I also bought many gifts for my friends, which were nice and cheap.

What a wonderful trip we had! We all want to go there again in the future.
